

OutputProvider

```
graph BT; OD[OutputDefinition] -.->|provider| OP[OutputProvider];
```

The diagram illustrates a relationship between two classes. At the top is a white rectangular box labeled 'OutputProvider'. At the bottom is a gray rectangular box labeled 'OutputDefinition'. A dashed purple arrow points from the 'OutputDefinition' box up to the 'OutputProvider' box. To the right of the arrow, the word 'provider' is written in a light gray font.

OutputDefinition
