

MAX22531::begin

MAX22531::HWreset

MAX22531::writeRegister

```
graph LR; A[MAX22531::begin] --> C[MAX22531::writeRegister]; B[MAX22531::HWreset] --> C;
```

The diagram illustrates a functional dependency where two separate functions, MAX22531::begin and MAX22531::HWreset, both utilize the MAX22531::writeRegister function. The source functions are shown in white boxes on the left, while the target function is in a gray box on the right. Blue arrows indicate the direction of the dependency from the source functions to the target function.
